Name	Purchasing a ticket or pass
ID	6
Description	Purchasing a ticket or pass to a variety of National parks using the site's directory
Actors	Customer/Patron, Admin
Organizational Benefits	Accessing the ticketing feature through the website will be efficient for customers and will decrease lines at state parks. Also, checkout will include a feature that allows donations.
Frequency of Use	Every time the user chooses to obtain tickets through the website
Triggers	User selects the park that they want to visit
Pre Conditions	- The user searches for a specific park - The user uses the parks directory on the site - The user selects the option to buy tickets or passes and they are added to the cart
Post Conditions	- The user will then be able to track past orders - The user's interactive gaming experience will track parks visited through past orders
Main Course	1. User selects tickets and adds to cart 2. User proceeds to checkout 3. Admin verifies transaction
Alternate Courses	1. User cancels a ticket purchase 2. User saves park to a list of parks they would like to visit
Exceptions	1. User has invalid card information 2. User has insufficient funds 3. Park is closed following extenuating circumstances
